

## decoself Vlies V20

### Wallpaper past for non-woven wallpapers

**Instructions for use:** *decoself Vlies V20* is suitable for pasting woodchip wallpapers, paper wallpapers, vinyl wallpapers and similar wall coverings.

**Technical specifications:**

Components:	starch ether, poly vinyl acetate powder
Density:	approx. 0.50 g/cm <sup>3</sup>
Solubility:	ready for use after approx. 30 minutes
Usage:	approx. 200 ml/m <sup>2</sup>

**Surface preparation:** The surface must be dry, firm, and dust and grease-free. Remove old, peeling wallpapers and distempers using *PUFAS Wallpaper Remover*. Make good cracks and holes using *PUFAS Interior* or *PUFAMUR Super Bonding Filler*. Pretreat highly absorbent, sanding and chalking surfaces using *PUFAS Deeply-Penetrating Primer – solvent free*.

Water-soluble contaminations in the surface, which could show through when wallpapered over, should be isolated using *PUFAS Insulating Spray White*.

We recommend a first coat with *PUFAS Wallpaper Primer white* if hanging highly translucent wallpapers and where surfaces are highly contrasting. To make a subsequent change of wallpaper easier, we recommend priming the surface first with *PUFAS Wallpaper Base Primer 'Tapeten-Wechselgrund'*, especially where washable wallpapers are used.

**Application:** Stirring vigorously, sprinkle *decoself Vlies V20* into clean, cold water and continue to stir for a few minutes. Leave for approx. 30 minutes and then stir vigorously again.

Apply the adhesive to the wallpaper using a brush. Fold the pasted ends inwards and hang after an adequate soaking time. Always observe the wallpaper manufacturer's instructions for use.

We recommend to add 750 g *PUFAS Wallpaper and Border Adhesive* per 200 g packet *decoself Vlies V20* for use on hardly absorbent surfaces and to increase the moisture resistance.

Do not use if the surface and room temperature are below + 5° Celsius!  
Remove adhesive residues using a damp cloth.  
Clean tools in water after use.

**Mixing ratio:**

for	Mixing ratio	Quantity of water per 200-g packet	Coverage of a 200-g packet
Pre-pasting	1:50	10 l	60-80 m <sup>2</sup>
Non woven wallpapers – for applying to the wall or to the wallpaper	1:20	4 l	20-25 m <sup>2</sup>

**Storage:** Store in a cool and dry place.

**Available size:** 200 g collapsible box 023008092
